[Ruff Endz]

I know I made mistakes before  
But girl I never lied  
So I apologize  
And I know sometimes I made you cry  
But now I realize  
I need you by my side  
When it comes to you  
I swallow my pride  
Cause you're the reason why  
I feel so alive  
Girl please tell me  
You'll still be my lady  
Without your love in my life  
I'll go crazy

I know I made mistakes before  
(But I never lied)  
Tell me if you're leaving  
(Or staying by my side)  
You know that I love you  
I wouldn't know what to do  
Please don't forget about me

I know I should of thought about  
The things I did before I did 'em  
If I can stop your tears  
Oh girl I can't see a way  
To stop the pain that you're feeling  
If I can make it right God knows I will  
Please give me a chance  
To make things right once again (ooh)  
Before we fell in love  
Remember we were friends  
So don't let it end

I know I made mistakes before  
(But I never lied)  
Tell me if you're leaving  
(Or staying by my side)  
You know that I love you

I wouldn't know what to do  
Please don't forget about me

All my life I've been searching for  
A love so pleasing  
We've been at this together so good  
Everything I have is yours

Ruff Endz  
Bringing it to ya Baltimore style  
You know what I'm saying  
For the year 9-9 and the Dru world order  
Baltimore done it again  
The N-Tity, what you expect?  
Yo bring it back  
Baltimore done it again  
Ruff Endz, N-Tity, what you expect?

I know I made mistakes before  
(But I never lied)  
Tell me if you're leaving  
(Or staying by my side)  
You know that I love you  
I wouldn't know what to do  
Please don't forget about me

I know I made mistakes before  
(But I never lied)  
Tell me if you're leaving  
(Or staying by my side)  
You know that I love you  
I wouldn't know what to do  
Please don't forget about me
