Waiting, time you heard, open up, where's your  
love  
Fleeting virus won, shadow peers, share their  
fears

I can't make you see the world, Just look inside your  
crowns above  
So were you here? Were you here?  
Woven in this holy life, blind kids cannot see the lines.  
So were you here? Were you here?

Painting skies in drift, focus up, where you're  
from  
Feeding the mouths you lost, hold them near, mend  
their tears  
The Fields, brought us this downgrade  
Greed, brought us this downgrade
