[Verse 1]

Its only you, that can suck the way you do
It's the bad, last taint of habitual reason.
Realists the shoot the fame into Shame.
I feel your taste enclosed New hills feed the world its
open sore.

[Pre-chorus]

The way you feel inside...
The Taste so Burning Bright
Lured into you...
This Shifting Flux Inside...

[Chorus]

Come Feel Me!

[Verse 2]

The soul in you... My Mind glows
Your fisting touch, To fore go
Itch my pain, red twisting nails bleeding.
Freeing me... I can save you mind

{Repeat Pre-Chorus}

{Repeat Chorus}

[Bridge]

It's up to you now! The way you want.
The itch you soothe now, the fix, you drug.
