[Verse 1]

There you lay, in my sheets of pain now  
Waiting to get me home.  
I feel sore. This wasted mock love  
That feeding on tears

[Pre-chorus]

A little piece of anger inside of me  
Never hurt the shine of it  
The crushing word of craving me inside of you  
Like new, The catastrophe

[Chorus 1]

I know I want to see you, and that is what I like.  
And now you're the looking picture perfect  
now... In the sun.

[Verse 2]

Lying shame, lament your true hope  
Of my importance.  
Loneliness, the drug that fuels those  
In which you come in

{Repeat Pre-Chorus}

[Chorus 2]

I know I want to see you, and that is what I like.  
And now you're looking picture perfect now... With a  
Gun

[Bridge]

Now you're perfect...

{Repeat Chorus 1 and 2}
