Don't you go to turn around
Under the moon & stars
Can you find where hides the love?
Breathing down your neck

Someone's found a way
Someone's found a way

I see the moon, the moon sees
All i do is twist in the breeze

Someone's found a way
To break into my mind
Someone's found a way
To break into my mind
Someone's found a way
To break into my mind
Someone's found a way
To break into my mind

(someone's found a way...)
....to break into my mind....

Aaaahhh...
Aaaahhhh...

Live's a gun that's always pointing
Live's a gun that's pointing in my face

(someone's found a way...)
(someone's found a way...)
(someone's found a way...)
(someone's found a way...)

Aaaahhh...

(someone's found a way...)
(someone's found a way...)
(someone's found a way...)
Aaaahhhh...
(someone's found a way...)
(someone's found a way...)
(someone's found a way...)

Aaaahhh...
Someone's found a way...
Someone's found a way...
Aaaahhh...
Someone's found a way...
Someone's found a way...
(to break into my mind...)
(to break into my mind...)

I like...
The street, the smells
The sense of the underworld
Sometimes you come face to face with yourself
