(what's it like...to be back?)

You see things in life  
And you'd be surprised what you see.  
Life, your whole life, is changes  
You go through changes in your life  
One second you've got it made  
Next second you're down in the dumps  
And it goes back and forth  
Throughout your whole life  
One second you've got the most beautiful girl in the  
world  
Next second you don't even have a girlfriend no more  
And it goes back and forth  
And back and forth, you know?  
And this is life man, it's changes  
This is what you gotta go through throughout your  
whole lifetime  
I'm going through changes  
I'm going through changes  
I'm going through changes

And it goes back and forth  
And back and forth, you know?

Never...  
Never...  
Land...
