you are lightning bolt
yes we must find a way
to conduct your energy
to a life machine

well you are
softly shaking electricity
softly shaking electricity
well you are
static hair in a cloud machine
static hair in a cloud machine....

well you are
softly shaking electricity
softly shaking electricity
well you are
static hair in a cloud machine
static hair in a cloud machine....
you are lightning bolt
yes we must find a way
to conduct your energy
to a life machine

well you are
softly shaking electricity
softly shaking electricity

well you are
static hair in a cloud machine
static hair in a cloud machine.... x10

you are lightning bolt
yes we must find a way...
