Too much love  
I got too much love  
As a vision slides  
I got too much love  
I got too much love  
As a motion dies

You figure there's time  
For a man to run  
You figure there's time  
For the falling stars come down on us

Run run run till you think you're made  
Run run run till you're told you're safe  
Run run run till you're overcome  
Run run run you're the only one

I got too much love  
Don't deceive me now  
As the color slows  
I got too much love  
For a glitter doll  
For the rainfall

You figure there's time  
For a man to run  
You figure there's time  
For the falling stars come down on us

Run run run till you think you're made  
Run run run till you're told you're safe  
Run run run till you're overcome  
Run run run you're the only one

Run run run till you think you're safe  
Run run run till you're told you're made  
Run run run till you're overcome  
Run run run you're the only one

Don't step down

I got too much love

For the glitter doll  
And my emotion slides  
In another end  
In another life  
I was on your side
