Where's the Seraphim
Where's the money that we made
Where's the open gate
Where's the fortune that we saved

Heaven's here for you and me
With every falling curl
Heaven's here for you and me
we gained ourselves the world

Hit the Motorway
I can take it all at speed
I got everything
I got everything you need

Heaven's here for me and you

scattered out with pearls
Heaven's here for me and you
we gained ourselves the world

Where's the warrior of light
with gates of solid gold
Paranoia through the fight
with dreams that never fold
Heaven's here for me n you
scattered out with pearls

Heaven's here for me and you
we gained ourselves the world. (x2)
