I want to kiss you every night,
Put you bed,
Cook for you or take you out so that your tummy is fed.
When I wake up every morning, you are the first thing that pops up in my head.
Every decision I made and make I always put you ahead.
You're all I ever needed and ever wanted.
Diana I'll even love you until I am dead.
Diana I want to be the one, to grow old with you.
I'll hug you,
I'll kiss you,
Give you medicine and make you soup when you are sick.
I miss you,
I need you,
Diana you really are my one true love.
Diana I want to be the one, who grows old with you.
I want to spend my life with you.
