"Remains"

Visit "[Remains](#)" on MotoLyrics.com

Burn down my home
My memories hardened and bright as chrome
Good times escape
While every mistake seems to be caught on tape

I will go rolling fast
Arms out in the rain
Feel momentum building
To lift off ground like an airplane

Love ties you down to the pains
A billion eyes watching
Fossilized they see what remains
Remains

Gave up this town
What waste are we left with
When its boiled down?
Shine light on me
Your image reflected is all you'll ever see

I will go rolling fast
Arms out in the rain
Feel momentum building
To lift off ground like an airplane

Love ties you down to the pains
A billion eyes watching
Fossilized they see what remains
Remain
