[Intro]

I dedicate this

To the only girl I ever loved

[HOOK] 2X

Won't you please, come out and play with me

My little ecstasy

[Verse 1]

I done popped three, can't wait to make it fo'

That little ecstasy, she's a freaky little hoe

She let's me fuck without the rubber

Never had to tell her, but she knows that I love her

First day I met her had me spendin' all my cheddar

Ya know the type of girl that'll break ya if ya let her

I hope we last forever cuz I love her company

She's the only one that really understands me

Should see us at the club, we be lookin' fly together

Swear to God, hope we mothafuckin' die together

It's just me and my bitch

She loves me if I'm broke or if I'm filthy fuckin' rich

It's like that

HOOK 2X

[Verse 2]

I been missin' you lately, I ain't seen you around

Heard that nigga that you with, he be lockin' you down

He's a busta, huh?

He don't trust ya, huh?

He don't know half the niggas that done fucked ya,
huh?

You's a dime piece baby you belong with me

I can already see how out life would be

You and me at the Billboard Music Awards

Jumpin' out the six hundred with the bullet proof doors

You's a bitch and I'm a rebel

Will and Jada Smith couldn't even reach our level

Understand my mind, body, spirit, and soul

That's why my love for you is true and never gets old

I don't care if you mess around, sleep around town

You've been down since the underground
Never did you clown when those hounds used to come
around
You were down, when my other hoes used to fuck
around
Now it sounds like I gotta go, I can't chase you down

HOOK 2X

[Verse 3]

I guess I lied when I said that I would never chase you
down
I 'most cried when they said that I, had to put you down
But you took me back with open arms, My lucky little
charm
You're the reason why, I can always make it through the
storm
You was there back in '95 when Power Tools was live
Alex C. was on the ones and twos, I was gettin' high
Me and ecstasy, you could see the love up in her eyes
She don't question me, ain't with that "Oh where were
you tonight?"
She's understandin', not demandin' doesn't want my
time
All she wants to do is just stimulate my mind
She taught me how to take the love and turn it into
paper
That's why I take the bud and turn it into vapor

HOOK 2X
