(Harlan Howard - Kostas)

I loved you then I love you still
I miss you darling I always will
Resigned myself to feeling blue
Ain't found nobody since I lost you.

Once upon a time, once when you were mine
I gave all my heart to loving you
As shadows fall I'm falling too
Ain't found nobody since I lost you.

--- Instrumental ---

Friends come and go but they won't do
Don't really want somebody new
You'll never know what I go through
Ain't found nobody since I lost you.

Once upon a time, once when you were mine
I gave all my heart to loving you
As shadows fall I'm falling too
Ain't found nobody since I lost you.

Ain't found nobody since I lost you...
