(Raul Malo - Robert Reynolds)

Everytime you pass me by
I sit alone and wonder why
I try so hard to catch your eye
When I don't even know your name.

With my eyes I've seen the world
But never has there been a girl
To make me fall in love this way
And I don't even know your name.

If you analyze you will realize
That you won't have to find another
Don't you wait
Please don't hesitate anymore.

In my mind a thousand times
I played the part and read my lines
You and I would be the stars
And I don't even know your name.

--- Instrumental ---

If you analyze you will realize
That you won't have to find another
Don't you wait
Please don't hesitate anymore.

In my mind a thousand times
I played the part and read my lines
You and I would be the stars
And I don't even know your name.

--- Instrumental to fade ---
