(Raul Malo - Kostas)

Memory can't you see
That's not what I should be
After all she meant to me
I'm just a memory.

Hand in hand we used to walk
Heart to heart we used to talk
Now she's gone and it will be
I'm just a memory.

Memory can't you see
That's not what I should be
After all she meant to me
I'm just a memory.

--- Instrumental ---

Yesterday when she was mine
There have been no better times
And every night I think of when
She'll come back again.

Memory can't you see
That's not what I should be
After all she meant to me
I'm just a memory.

After all she meant to me
I'm just a memory...
