"San José"

Star lit skies, Texas eyes
Looking down on me tonight
Across the street, strangers meet
hoping to catch a rising star.

You and I, will stay up and wake up
And then
One more day, come what may
At the San Jose.

Spend the night, become the night
You never run out of things to do
Moonlight swims, midnight sins
Rooms for a secret rendezvous.

You and I, will stay up and wake up
And then
One more day, come what may
At the San Jose.

--- Instrumental ---

One more day, steal away, come what may
At the San Jose!...
