"To Be With You"

Visit "[To Be With You](#)" on MotoLyrics.com

(Raul Malo - James House)

A shoulder to cry on
Someone to lean on
Someone to take you away
Someone to talk to
And somewhere to walk to
I need to remind you someday.

When ever you need me
I'll make the time to be with you, to be with you.

A night to remember the rain in september
I wanna share it with you
The month by the ocean we swore our devotion
Would make all our wishes come true.

Whenever you need me
I'll make the time to be with you, to be with you.

I want you to know
I never before felt this way
No other words can say
I was lost just yesterday
Untill I found you.

--- Instrumental ---

Whenever you need me
I'll make the time to be with you, to be with you.

A night to remember the rain in september
I wanna share it with you...

--- Instrumental to fade ---
