As they migrate to the North

Escape nefarious scorn

Penitent plunging forth

Empty eyes that feel forlorn  
Nefarious Lurks  
They wear the burden of grief

The appearance of great loss

This world of crumbled belief

Capitulate their lost cause  
Nefarious Lurks  
They weep for their loved ones lost

They contemplate the enormous cost

Malignancy can never cease

Procreate despair as disease  
As the wicked accrue

to destroy and subdue

For they will aggrieve

to rape them and bereave  
Evil shroud upon us all

Malice has answered the call

Encase, impose it's decree  
Severed the right to be free  
Gathered to set the plot

to become the next despot  
Hide, divide, chose your side

with no body to confide

Through the shimmering light  
they feel their will power bent  
No dawn to break the night  
in this place belligerent  
Nefarious Lurks  
So they were left there disdained  
with no one left to be blamed  
Fettered in the grip of fear  
ascertained, evil is here  
Asphyxiate on their loss  
Malign spirit sweeps across  
forsaken all of their hope  
Love and faith, their will to cope
