Yeah, Ive come to far to turn around
Cant go back, I need to turn my life around,
I need to learn my life is loud, take it down and bow
and make ma wife be proud,
I know wot life is now, know my life is now, no my life's
a mountain,
And im tryna reach the top, im climbin hydro on the
trot, don't wana die wit tha old flock

Ive seen the best come wit a flow, the rest are double
slow
We come like they don't know, ???
The good die young,
So I guess in 1993, the good guys gone,
Burnin liquid back in 93,
I jus wana c ma family, livin sumwer better,
Wer they find it easier to breathe,
And I find it easier to leave the road behind coz every
nite the police come bk 2 me,

We've come to far to turn around,
We'r on a rise and we can't bk down,
Coz it feels good, it feels rite, and I no that it's our
time, x2

So we neva do no, neva do c,
The quality in north star family,
Its not a surprise, we'r livin our dream,
And we came a little higher 4 the haters to c,
That we'r doin out thing, and we'r on the ball,
No more stopping us, we'r about 2 blow,
It's bin a long time and a struggle,
Ther's no hope 4 2moro.
Im fed up of all of the sorrow,
We'r gona win the battle,
So we took the time, to realize, thers much more to this
life,
No more questions why we gotta try to make things
better 4 ourselves

We've come to far to turn around,

We'r on a rise and we can't bk down,
Coz it feels good, it feels rite, and I no that it's our
time, x2

They'l b gud times, they'l b bad times,
They'l b times in life wen u feel like u cant go on no
more,
But keep ur head high, and u wil find,
A pack in ur life that seems brighter then the life u lived
b4,
The doors we open, we'r neva closin,
We gotta find a way 4 a better day,
We'v come to far to turn away

We'v come to far to turn around,
We'r on a rise and we can't bk down,
Coz it feels good, it feels rite, and I no that it's our
time, x2

We'v come 2 far to turn around, 2 late and we can't bk
down
Yeahhh, yeahhhhhhhhhhhhhhhhh, alright, north star
