"Down To Nothing"

I'm at the edge of uncertainty
As we're letting go of who we are
You might think you found a better place
Closed your heart, you're far too far

You must be mistaken
Probably confused
How can you not feel it
Just a phase you're going through
Just a space without me and you

I never knew just how close I was to nowhere
When I was so close, to you
I never knew just how close I was to nothing
When I was so lost, in you

Down to nothing
Down to nothing
Close to nowhere
Nothing
