[Scrolls of truth revealed]

Know how to dominate, the force to terminate,
the lives of thousands are in my hands
I see betrayal, but do I care, no I don't care 'cause I'm
not there
Hear nothing, see nothing, say nothing, do nothing,
so are you and you always will
Follow the leader, the leader I am, from Hell I'm sent, I
came to kill
Begehms ir mista begehms, begehms ir mista begehms,
begehms ir mista begehms, begehms ir mista begehms
Don't come and tell me, that you never knew, you saw it
coming
but what did you do,
Following orders and who disagreed, was simply
outtaken
and put on his knees
A life is not a hard time to spend, but don't blame me
but the one who has sent You to see me
for I'm the judge, and on my anvil your head is crushed
Begehms ir mista begehms
