#### Verse 1

I know this seems so big  
And everything seems so out of reach  
The sky is high and the walk is wide  
You just don't know what you've got yet

#### Bridge

Its in the palm of your hands  
Its right in front of where you stand

#### Chorus

If you believe, everything you dream, will come true  
If you can love no matter how you hurt, Love will come  
to you! back to you.. This world is yours

#### Verse 2

At times I know its going to be hard  
When you think you cant go on  
But there's a plan for you just let your heart follow  
though  
Come on, I promise you can do it all  
Cause where you fall you can always start again  
Your future is right in front of where you stand

#### Chorus

If you believe, everything you dream, will come true  
If you can love no matter how you hurt, Love will come  
to you! back to you.. This world is yours

#### Coda

Climb a mountain  
Cross the ocean  
Sail the river until it opens  
Make good friends, listen hard  
Let it out, and dance on..

## Chorus

If you believe, everything you dream, will come true  
If you can see there's nothing that can be too big  
for you  
If you can see, if you can believe, if you can dream  
This world is yours 2x
