Alfonse Capone
Godfather on a throne
A king of crime
A product of his time
A pimp before puberty
A menace to society
Bootlegging and bribery
Outrageous brutality
Prostitution and gambling
The Chicago mobster
Scarface was a monster
He got life in jail
With no set bail

Beat the rock
AZ 85

Alone in a cell
A self inflicted hell
Refusal of medicine
The nails for his coffin
In a Florida sun
Alfonse's life was done
He was a king of crime
Now he's done his time

AZ 85
Beat the rock
