[Bonus Track]

Frozen landscape, a winter sun  
Darkened blanket cocoon is spun  
Planted seeds are waiting to grow  
Thriving forests and jungle rain  
Scorched deserts across the plain  
The power of nature makes it so  
City sky lines, smog filled air  
Busy freeways of despair  
The destructive forces of mankind  
Avalanche of techno power  
Counting down the final hour  
The quest for knowledge is left behind

Left behind

Steaming geyser lava flow  
Built the world we all know  
Divided the land from the sea  
The fundamental ecology  
Dying forests, no jungle rain  
All's become a desert plain  
The destructive forces of mankind  
The results of techno power  
Counting down the final hour  
What will be the remnants left behind

Left behind
