# "Plenty Of Power"

Visit "[Plenty Of Power](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Harden steel and thunder sound  
Motivated to move the ground  
Digging deep the quarry heap  
Caterpillar's on the creep  
Moving rubble in its wake  
Turning rocks that crack and break  
It's the one to move a ton  
Mass destruction has begun

Plenty of power

Pushing power and endless source  
Mechanized driving force  
Moving rubble no trouble  
Feel the ground begin to rumble  
Single shank a blade of steel  
Turbo charged with mega zeal  
High sprocket powered rocket  
There is nothing that can stop it

Plenty of power

D11 dozer with massive power  
Meal of concrete to devour  
Dig a landfill bury a hill  
If you don't know, you never will  
Diesel engine that's after cooled  
Crawling creature that's fire fueled  
Fractured rock, after shock  
All I wanna do is rock

Plenty of power
