Incest sodomy sadomasochism and rape  
In the Christendom make no mistake  
Bigamy buggery bestiality and pain  
The whole damn world has gone insane

It's all a question of morality  
Who's to go to hell  
Reputed guilt repent thy sins  
Tell me where this evil begins  
Whose to judge these bloody deeds  
It's society's heart that always bleeds

Sins, sins of the flesh  
Sins, sins of the flesh

Fornication child molestation the consumption of your  
soul  
It's hard to believe men can stoop so low  
Torture murder necrophilia sickness of the mind  
Outrageous blasphemy against mankind  
It's all a question of morality  
Who's to go to hell  
And whose to judge these bloody deeds  
Society's heart that always bleeds

Cold hard facts are sometimes hard to take  
Look hard in the mirror and pray it's not too late

No more questioning morality  
'Cause we all may go to hell  
God will judge these bloody deeds  
Damned to hell the devil's fire it feeds
