[Bonus Track]

Not happy unless I'm miserable, sadness is my friend  
A disaster waiting to happen that I can't comprehend  
Born under a bad sign, the dark side of the moon  
Sealed with my iron fist that pounds out my doom

You don't want to be like me

Sarcastic and cynical has become my way  
Waking up each morning to another perfect day  
Misery needs company doesn't want to be alone  
Have a seat stay awhile I'll knock you off your throne

You don't want to be like me  
Misery's bad company  
You don't want to be like me

The lines on my face the maps of my soul  
Trials and tribulations are more than my goals  
I might live to win but I was born to lose  
Paying the price for the life that I choose  
Staying in the saddle is all that I know  
Holding on tight and never letting go  
Been there, done that I'll do it 'till the end  
Frustrated, underrated it's hard to pretend

You don't want to be like me  
Misery's bad company  
You don't want to be like me
