i got a vision in my head of how it should be  
and i wonder if that's how it will work out  
when she sits down will i be smart  
with a grin on my face  
or will i just want her to get out of my head and my  
mind  
that's how it goes that's how it goes  
some times i think it will be so right  
and if she shows and it's all wrong  
i feel her hand touch on my arm  
and my skin goes cold how can this be  
why's it so fake?  
and why's it so's fault  
how should i tell her she should go  
cause it's all my fault  
i let my heart get ahead of my mind  
and everything else  
that's how it goes that's how it goes  
sometimes i think it will so right  
and if she chose and it's all wrong
