[Shaggy 2 Dope]

Woo hoo

You shoulda seen her

Man, her fid in my hand heavy sweatin' like a fever

The way she cut through flesh, she was beautiful

Her grace and finess had my love incurable

Little red beady marks trickle down her closed eyes

Whenever there's static she'll make it all right

She was there, never saw me out

Hand on my bidness

Until that day

The court provided a witness

[Anybody Killa]

She was like the moon

The stars, the rain, the heat from the sun

Any fucking thing you could imagine

I was so upset when her ass left

I hunted her down at put three in her chest

Wrapped the body up put her in the ride and drove it home

To find a resting place so her soul can roam

What kinda girl could make a man just crack

The bitch really has to be all that

She was

[Chorus]

She was something I'll never forget

I don't really miss her though

Now she's gone and never coming back

She was

She was something I'll never forget

I don't really miss her though

Now she's gone and never coming back

[Violent J]

Blind date, she was alive when I got there

Dead when I left

I shut her throat down, squeezed all the air out her neck

She fought back, scared with a deep fear in her eyes

Until they rolled into the back of her head and she died  
I gripped her by the ears slamming her skull off the  
floor  
Till they ripped right off her head, I bolted for the door  
Started to cry I forgot to kiss her goodbye  
I turn around to go back in and keep reliving the lie  
She loves me

[Jamie Madrox]

She's like a ride on a roller coaster  
Filled with many ups and downs  
And did everything just to get closer  
To her, but she pushed me away  
Fat kids are used to rejection  
We deal with that shit everyday  
Something about her made me press the issue  
My friends told me to leave it alone, she'll only diss you  
She did, but I was ready for that  
Pulled my axe outta my book bag and I put it in her  
back

[Chorus]

She was something I'll never forget  
I don't really miss her though  
Now she's gone and never coming back  
She was  
She was something I'll never forget  
I don't really miss her though  
Now she's gone and never coming back

[Blaze Ya Dead Homie]

She was a brown complexion with a touch of German  
blood  
Like the sweetest purple cooch to ever surface in the  
hood  
I kept her on my bed  
And at my side at all times  
She was known for having grown men wanting her  
crime  
High temepered and high strung  
But at least she get the job done  
And bust off a couple straight shots just for fun  
Till that faithfull night  
The pigs busted in my residence  
And took my bitch and fucked her as some murder  
evidence  
She innocent

[Monoxide Child]

She's outta her mind  
It was like the second coming of Satan watching me

from behind  
She's been stalking me for weeks and weeks  
She keeps calling me and hanging up as soon as I  
speak  
What a freak show  
Leaving me little clues  
But nothin' coulda prepared me for her hanging in my  
living room  
With a note and a rope around her neck  
And it read, "My love will never die for you, even when  
I'm dead"  
Why would this girl that I love  
Carry me to murder  
Tell me why, tell me why, tell me something or die  
Why would this girl that I love  
Make me have to be this way  
Does she like me this way (x3)

[Violent J]  
Now the sign tell me that I got 45 years  
I'll get out in 30  
If I'm good  
If I have a good time  
I'll be out in 30 years  
I don't regret this baby  
I'm glad I did what I did  
Cause I love you and I don't regret doin' what I did  
30 years, I can give 30 years for you
