Where will I tomorrow be

When no longer here

No longer here...

No more dreams...

Slip away

Here, the rain... so empty

They are not here... not here anymore

And I drown in desolate waves... desolate waves

Of bottomless black seas... alone... alone

Slip away... alone... alone

Slip away... away... away

Here the cold... alone forever

Soon will be gone

No more dreams... no longer here

Soon will be gone... soon... soon
