

Until The End "Buried"

Visit "[Buried](#)" on MotoLyrics.com

You can cover my eyes
I will never be blind
I will never be deceived
You're gonna be buried and blind

Take these words to heart
Theres nothing more pure than this
Watch me fall apart, I've failed
And left you the shell of a man

You have no fucking heart
Theres nothing more true than this
I'll rip your life apart, I swear
There is nothing more true

I will never be blind
I will bring the end
I will destroy your faith

I will not let you remain
Ignorant to the lies
I will not let you
Down ever again

I will never fail
I will never be wrong
I will never fail
I will never be wrong again
