

## Until June "Hindsight"

Perishing beside myself I lay  
Better days I hope to see fade away  
Unsure I woke up in this place  
It was a long winding road from where I came

(Chorus)

It seems in hindsight that I've known  
That when I woke up your on  
Well I can't see you that I knew  
All that I have is you

Woke up inside an empty room  
Hadn't lost gaping holes and sounds that move  
Nothing I feel myself with do  
The only thing I know I feel is you

(Chorus)

I'm sorry when I can't see you (3x)

(Chorus) (2x)
