And it's the saddest song you'll sing  
When I'm alone with you  
Your tears come down  
You search your life for something new  
And what you found is true  
But now your gone

(Chorus)

Oh your alone  
And I'm waiting here for you  
Your alone  
And I'm waiting here for you

All of the streets were alone with you  
Well just to be with you  
But now your gone  
Fell in love with foolish things  
Fell away from me  
Now your gone

(Chorus)

And I'm waiting  
And your jaw burn here  
When you fail and your lost  
And I'm waiting for you  
Cause I know and you know

Not alone  
And I'm waiting here for you  
Not alone  
And I'm waiting here for you  
Oh no, not a lone  
And I'm waiting here for you  
Not alone, oh no when your not alone
