I let you come inside and wreck my bed

I let you come inside and wreck my head

I let you come inside and have your way

It's the same old shit it happens every fucking day

No More!!!

I can't take this no more

No More!!!

Can't take this bad love no more

I'm sick and tired of your annoying me

I'm sick and tired and I'm dying to be free

You always thought that I would never want to leave

Well, it seems I had my share of tricks up my sleeve

Fuck off bitch
