Ease Up a Little bit  
Coz I want to want you  
Follow the money spent  
well that's fine to guide you  
By my side let's go for a long ride  
In my car ill drive you to my star  
Out in space we'll make time  
Where we all  
Hey Hey yeah  
With celebration  
About time  
A generation getting along yeah  
The revolution's in everyone  
Blame the Girl  
Blame the Girl  
Ease up a little bit  
Coz I have to have you  
Ease up a little bit  
If your mine I'll find you  
By my side let's go for a long ride  
In my car ill drive you to my star

Out in space we'll make time  
Where we all  
Hey Hey yeah  
With celebration  
About time  
Our generation getting along yeah  
The revolution's in everyone  
Blame the Girl  
Yeah...  
Yeah...  
Hey Hey Yeah  
with celebration  
About time  
A generation getting along yeah  
The revolution's in everyone  
Blame the ...  
Celebration  
About time  
A generation getting along yeah  
The revolution's in everyone  
Blame the Girl  
(repeat)]
