Hey kids go rock n roll  
that's what you told me, what you sold  
me just before I got my soul back  
In fact id like to thank you for that  
cause if it wasn't just for you I  
wouldn't know what to laugh at  
I forecast the change in the weather  
You do it well but you know I do it better  
And whether you like it or not  
I'm hot as volcanic ash and no ones  
ever takin' my spot

You know ill let you go  
I'll let you go  
I'll let you  
But sometimes it might be better if we  
weren't forever  
Oh no cause forever is a long time  
However in the mean time

Forever is a long time  
However in the mean time

However in the mean time

Listen close I'm here to let you know  
That your sun don't shine past my  
smashed out windows  
that little rose is a thing of the past  
And if you think I'm even joking  
you've been smoking all you dads stash

I forecast a change in the season  
If the leaves are falling off there must be a reason  
Believe me if I'm leaving or not  
this here's out very last shot  
So baby give me all that you got

Cause you know ill let you go  
I'll let you go  
I'll let you  
But sometimes it might be better if we weren't forever

Forever is a long time  
However in the mean time

I, want you  
Want every little thing to be about you  
If you promise not to be a little thorn  
in my side  
Then every little thing is going to be  
alright  
And I need you  
But I don't think that ill never leave you  
the cutest little thing that I ever did see  
There's just a couple things that matter to me  
There's one  
I'm here for fun  
There's two  
I make the rules  
There's three  
It's all about me  
And there's four  
there's no more no more  
So sayonara  
Cause there is no tomorrow  
here's to all the new drama  
and cheers to all that may follow  
All together now  
oh no all in forever now
