Well, you're my chemical
I'm in trouble, I've lost all control, c'mon
12 o'clock in the Savon parking lot
A 30 day supply to get us high
So say goodbye tonight, my love

Welcome to oblivion
Here I come, here I come
Burning bridges just for fun
One by one, damage done
Can you feel me? Here I come

And my darling remedy
Oh please, please, please, don't leave me
Lets go, 2 o'clock now we've been around the block
We've closed the bar and lost the car
We've come too far to stop tonight my love

Welcome to oblivion
Here I come, here I come
Burning bridges just for fun
One by one, damage done
Can you feel me? Here I come

Yes, it tastes
Like you might, might be laced
I'm not sure
'Cause I can't feel you anymore, yeah
So say goodbye my love

Welcome to oblivion
Destruction, here I come
Burning bridges just for fun
One by one, yeah, the damage has been done

I'm torn to pieces small enough
To pick me up, so pick me up
Welcome to oblivion
Destruction, here I come
Can you feel me? Here I come
