

## UpDharmaDown "Sleeptalk"

Visit "[Sleeptalk](#)" on MotoLyrics.com

you know i hate it  
evetyime you sleeptalk  
through the night  
you say all the things  
that you oh so deny  
though we all have  
our little infidelities  
it doesn't mean  
that it's all right  
to keep me out of this  
gotta hear me say yeah  
gotta hear me say no  
promise me you'll never  
come back again  
got nothing left for you  
my love, sleeptalk  
when i've come so far  
when you've come so far  
when we've come so far  
and this is what you do to me
