I fall
Down
No control somehow
No help
Now
My favour slides
No one comes
Here
Now I'm feeding strangers
Thin air
Like cold death
Here in my heart
I fell for so long for you all
I fell for so long for you
I fell for so long for you
Come in
I'm the ghost
Of the white faced clown
She's gone
Gone. I won't look back
She's gone
I'm old
So old
This infection of time
My skin
Age
Shows no kindness to me
I fell for so long for you all
I fell for so long for you
I fell for so long for you
