So pretty  
So smart  
Such a waste of a young heart

What a pity  
What a sham  
What's the matter with you Man?

Don't you see it's wrong?  
Can't you see what's right?  
Outta mind and out of sight

Call on all your girls  
Don't forget the boys  
Put a lid on all that noise

I'm a satellite heart  
Lost in the dark  
I'm spun out so far  
You stop by a star  
But I'll be true to you

I hear your living out of state  
Running in a whole new scene  
You know I haven't slept in weeks  
You're the only thing I see

I'm a satellite heart  
Lost in the dark  
I'm spun out so far  
You stop by a star  
But I'll be true to you

I'm a satellite heart  
Lost in the dark  
I'm spun out so far  
You stop by a star  
But I'll be true to you  
No matter what you do  
Yeah I'll be true to you
