The song you sing is
Sentimental

The song you sing is
Making me well

I like it like it
Outta control

The song you sing
Gives me vertigo

Oh oh I was
Singing to myself

Whoa whoa
Pretending you were there

Whoa
Whoa lose my eyes and it begins

Whoa you're giving me the
Spins

This medicine's
Experimental

This medicine it's
Making me well

I like it like it
Outta control

This medicine gives
Me vertigo...

Oh oh I was singing
To myself

Whoa whoa pretending
You were there

Whoa whoa lose my
Eyes and it begins

Whoa you're
Giving me the spins

Chorus

Everyone I see
They stop and stare

Everyone I
Meet but I don't care

Everything
I knew is dying dead

Everything I
Feared was in my head

This
Medicine's experimental

This
Medicine it's making me well

I
Like it like it outta
Control

This medicine gives me
Vertigo

Oh oh vertigo

Oh oh (I
Was singing to myself)

Oh oh oh
Vertigo

Oh oh oh (I was singing
To myself)

Oh oh oh oh (I was
Singing to myself)

Oh oh oh oh
