Visit "[Rest Of My Love](#)" on MotoLyrics.com

Lately when I look at my self
I can't help but wonder, what comes next
I've spent a whole lifetime reading the rules
Spent a whole lifetime in a moonlight bliss
But shortly let's spend a night like this
It's a spiritual affair, with a spiritual kiss
Can't you see that waiting for you, waiting for you
Is the rest of myyyyy love...

The rest of my love is all I have to give to you, oh sugar
Oh will you take it? Or will leave it? And if you like it,
then take good care of it,

The rest of my love is all I have to give to you, oh sugar
Oh will you take it? Or will leave it? And if you like it,
then take good care of it,

-piano two-bar riff- baritone notes

Lately I took a walk in the park
The stars were out and I was as cold as ice
"don't you know that shouldn't be here"
Said a familiar voice in the moonlight
Turning around, I saw your face
In a light like an angel's smile

It's a spiritual affair, with a spiritual kiss
And the rest of my love is all I have to give...

The rest of my love is all I have to give to you, oh sugar
Oh will you take it? Or will leave it? And if you like it,
then take good care of it,

The rest of my love is all I have to give to you, oh sugar
Oh will you take it? Or will leave it? And if you like it,
then take good care of it,

-piano two-bar riff- bass notes

All I have, all I have to give
All I have, all I have to give
All I have, all I have to give

Is the rest of my love, is the rest of my love, is the rest
of my love, ooo ooo sugar
Is the rest of my love, is the rest of my love, is the rest
of my love, ooo ooo sugar

The rest of my love is all I have to give to you, oh sugar
Oh will you take it? Or will leave it? And if you like it,
then take good care of it,

The rest of my love is all I have to give to you, oh sugar
Oh will you take it? Or will leave it? And if you like it,
then take good care of it,

The rest of my love is all I have to give to you, oh sugar
Oh will you take it? Or will leave it? And if you like it,
then take good care of it,
