Hey baby I love you,  
Guess what I've got planned tonight  
Alone some rose and a bottle of wine  
Soft music and candlelight  
You never say that to me  
Baby you never will  
There's one sure way of knowing  
How you feel

Your eyes give you a way of sayin'  
What I'm needing to hear  
Your eyes give me a way of seein'  
That your love is sincere  
When your heart feels things  
That your lips can't say  
Your eyes give you away

I've had my share of romance  
Guys who delivered the perfect lines  
I heard the words they were sayin'  
Oh, but I couldn't see when I looked inside  
One thing I love about you  
And I know I always will  
When you look at me I see  
The love you feel, yea ye

Your eyes give you a way of sayin'  
What I'm needing to hear  
Your eyes give me a way of seein'  
That your love is sincere  
When your heart feels things  
That your lips can't say  
Your eyes give you away  
Ooh oh

When your heart feels things  
That your lips can't say  
Your eyes give you away  
Give you away
