Surprise, surprise, so you rub your eyes  
Never knew UDS, so cool as ice?  
Hear the vibes man, they'll stupefy  
Ducks, categories us as hard criers

That's a lie, we know why we're occupiers  
No blurs, but obscure styles, these are higher  
Profiles are low, as soon as we go  
As a breeze straight from a deeper shade of soul

Five souls play the head role  
Excite the middle between the two poles  
The globe rotates from new to old  
UDS take both to reach the souls

Narrow mind Clyde's, still holding a pose  
What we pour 'an flow when we come close  
To the contrary, they pinch their earlobes  
They call it rogue-rock but it's a deeper shade of soul

We blend everything, with the color of skin  
Under the skin, we're in like Flynn  
Ducks stare at us, as soon as we begin  
To innovate the frame of thought they're in

Again, music's got to do with only feeling  
Not where you're from, it's can they yield in  
The stuff that we rock and what we're giving  
A piece of the mind connects the rhythm
