Ninety minutes, got so much to say  
Front and forgery  
Fifteen minutes, but the girl wants me to stay  
Front and forgery  
Suit and tie, suit and tie becomes so amicable  
Front and forgery  
Pass the time, pass the time with liquids and chemicals  
Front and forgery  
Pass on, pass on, move on forget it !

Get started, don't know where it begins  
Front and forgery  
Pull it off at loose ends  
Front and forgery  
Autograph, fix a laugh and hide a frown  
Front and forgery  
Just a band that's new in town  
Front and forgery  
Pass on, pass on, move on forget it !

It's cheap  
Wake me up while I lie asleep  
It's cheap  
Throw boulders while the road is steep  
It's cheap
