How can I see clearer
through that mirror
you're not nearer
than myself

I tried to brush my teeth yes
I must confess
tears just wetsplashed
on tha shelf

I tried to drink liquid from a cup
eat cereal lump by lump
af fullgrown baby that sobs
for his care got stoppped

Routine, routine, routine, routine

Feelin' I mean like takin' a bath with
my toaster takin' a brick for a swim
yeah what's the use of even
(breathin' now you're leavin')

I tried to join tha ratrace
and tha worldpace
stand tha grey lane on tha bus

I tried to find my way to tha mall
at k-mart, I just fell apart
and hey, what's in a brands name
for it all tastes tha same with that routine

Routine, routine
day in, day out
routine, routine
pullin' me down

Routine, routine, routine, routine
