Yesterday was just the beginning of my life

[Camillia Temple]

You're a friend of mine

I think that somehow I've changed

well don't you worry

cause there aint nothing strange

cause Yesterday was just the beginning of my life

[Ben Lummis]

you know I'm always losing

doing everything wrong

wait and see

there'll be a change from now on

for Yesterday was just the beginning of my life

[Filippo Saipani]

I've lived my life like a crazy fool

making trouble and missing school

but yesterday my dreaming all came true

when I met you, ohhhh

[Michael Murphy]

I want to thank you girl

cause you've opened my eyes

to so much love

now that I realise

that Yesterday was just the beginning of my life

[Luke Whaanga]

I feel so good inside

oh girl you know what I mean

since you came by

I walked around in a dream

Oh Yesterday was just the beginning of my life

[Dave Houma]

I've never lived like I'm living now

until you came along and showed me how

I never knew what a love could do

till I met you

[Sela Mahe]

I'm gonna call my friends

and tell them all about

the way I feel

I want to stand up and shout

cause Yesterday was just the beginning of my life

[Jessie Cassin]

I wanna thank you boy

cause you opened my eyes

to so much love

now that I realise

cause Yesterday was just the beginning of my life

[All]

Yesterday was just the beginning of my life

[Eddie Gaiger]

I'm gonna call my friends

and tell them all about

the way I feel

I want to stand up and shout

Yesterday was just the beginning of my life

[Robin Johnson]

I feel so good inside

girl you know what I mean

since you came by

I walked around in my dream

cause Yesterday was just the beginning of my life

[All]

Yesterday was just the beginning of my life x2

Yesterday x2
