Quick, let me get drunk as fast as I can,
So, I can fall asleep
And pretend to be a different man.
You know, the one that's an architect.

Is this a case of the grass is greener or is it more
fresh? (I'd say the ladder)
That's harsh, like drowning in a sticky marsh
All your skeleton's in veil,
Man, this life was dark, like Gargamel
The only saving grace was that he did a song with el.

Yo, geti life, laying next to the sweaty wife.
Hey, man, can I borrow your mind? No!
I really need a hit, it's been a long time.
Like seeds are growing to be giant pines
I sit and stay in school,
Everyday ain't cool.
Hey, Yoni
Yeah! I really need a hit,
Something quick, this shit has been an
embarrassment.
I wanna be on film, too, so I hired a film crew,
It got expensive.
That's the job,
People get hired to do.
I also got taken by the gipsys in Berlin, too.
No marble, we're like twins, dark corner in basketball
courts with meants.
I told her I could get her close to Yoni, I was lying,
though.
I told her I could get her close to Yoni,
I was lying, no, we're not really homies
He was getting later,
I think she got the picture,
She became silent, wouldn't that be your geti life?
Laying next to the sweaty wife?

Yoni's world,
What? laying next to one of Yoni's girls.

Always wanted to be on the record label,
Always wanted to have my own show on cable.
My favorite team is 87 cups, I love all dossim, I never
felt awesome!
It's always been a huge problem,
I have a huge nose like the woman wanna block some.
Peace it out in my man eye costume,
I live in Chicago, went in California often.
(In the middle west)
Always wished my name was Otto,
everybody has a dream that they win the Lotto.
Or at least full to Able Gobby,
I made it to the orange belt on sandokan karate's.
I'm drinking some, buddy. Wish I had a friend with
some decent hobby
(Shit!) My favorite show is tennis!

(Have you been listen to me?!)
Off and on tilt, off and on balance,
Getting older, so I hang around milfs,
(I don't, seriously!)
My head will explode.
Do a lot of music to enter a secret code.
Kept me from under comote, explode
Geti life, laying next to your sweaty wife.
YEAAAH!
