I'm supposed to be light bright and superficial
And I'm supposed to be a fountain of happy thoughts
And I'm supposed to live like some kind of wedding
song
And I'm supposed to stand here and make out like I'm
strong

What if I'm wrong?
What if I'm wrong?

I pass you on the street and my eyes go down
Your number's on the screen so I let the call ring out
You say you want to see me say you want to be my
friend
But something doesn't feel right - I won't pretend, I
won't pretend

What if I'm wrong?
What if I'm wrong?
What if I'm wrong?

I always go with what my bones say
And my bones say follow your heart
I always go with what my bones say
My bones will tear us apart

I can't see the future, I've no crystal ball
Doesn't really matter, what will fall will fall
You know how I missed you but you're too late now
And my bones sent me a message that I'm better off
without (you)

What if I'm wrong?
What if I'm wrong?
What if I'm wrong?

I always go with what my bones say
And my bones say follow your heart
I always go with what my bones say
And my bones will tear us apart
[x2]

My bones will tear us apart
My bones will tear us apart
