It's funny how you wake up  
Say you wanna break up  
You say, "Time's out on my Jacob"  
You've been watchin' and observin'  
And don't know where we're goin'  
You ain't got time for blowin'

It's apparent here lately  
That you've been actin' shady  
An' with everythin' you doin'  
You ain't tryin' to involve me  
You really need to stop it  
We done came a long damn way

We done came a long way  
From being young and in love to this real serious  
We done came a long way  
Ain't no need to break up, come to think about it  
We done came a long way  
From walking to the bus to two cars for us  
We done came a long way  
We done come a long long way

Maybe I should tighten up  
Or maybe should I lighten up?  
And show you that I got your back  
Even though sometimes I act  
Like I don't hear what you're sayin' now  
Maybe I should stop playin' round

Show you I'm a real man  
And hopefully you'll understand  
That I ain't goin' nowhere  
Ain't no need to take it there  
Don't want you put them bags away  
We done came a long way

We done came a long way  
From a one bedroom to a maid with a broom  
We done came a long way  
Ain't no need to break up, come to think about it  
We done came a long way

From meeting both of your parents and to a stroller  
and a carriage  
We done came a long way  
We done came a long way

Sometimes it gets rough  
And you go through some things  
Sometimes it seems like too much  
Girl, but we got to stop and think  
One day I hope you wear my weddin' ring  
'Cuz only you know where we've been  
And you know we've come too far, yeah

'Cuz you were there  
When I was set down in the ghetto  
We've come too far to turn around

We done came a long way  
From being young and in love to this real serious  
We done came a long way  
Ain't no need to break up, come to think about it  
We done came a long way  
From a one bedroom to a maid with a broom  
We done came a long way  
We done came a long long long long long long way

We done came a long way  
Put your bags down, sit down, let me talk to you  
We done came a long way  
I'm not worried what nobody gotta say 'cause  
We done came a long way  
They don't know what we've been through  
We done came a long way  
You know and I know  
We done came a long way
